Subject: Recognition of the efforts of the team of lawyers

Dear Sirs,

Our best compliments,

I would like to express my heartfelt gratitude to the Aceris team, on behalf of the Angolan Government, specifically to the Managing Partner William Kirtley and his Associate Nina Jankovic. Their intelligence, passion, dedication, and professionalism are beyond what any client would expect. They were well organized and worked closely with our technical personnel to prepare the case in a thorough manner, always ensuring that our concerns and suggestions were properly addressed. I am blown away to observe how quickly they could grasp the very technical engineering aspects of the case.

William has shown deep knowledge of legal and arbitration matters, quick thinking, perseverance, and strategic mind. Nina was always available, very thoughtful, diligent, hard-working and with an incredible eye for details. More than the excellent outcome, I am pleased to have worked with such a competent team.

Office of the Secretary of State for Water, Luanda-Angola.
